Raise the bar on your cloud security management posture with ClearDATA

ClearDATA Bio

ClearDATA delivers holistic cloud security, compliance, and operations to help healthcare technology leaders secure PHI and other sensitive data in the cloud.

Its team of experts, managed services, and a cloud security posture management (CSPM) platform provides the full spectrum of ***pre-emptive*** and ***reactive*** solutions, so you can focus on patient care, innovation, and speed to market.

INTEGRATE

Cloud Security Posture Management (CSPM)

The ClearDATA CyberHealth™ Platform integrates 300+ safeguards aligned with critical healthcare regulations including HIPAA, HITRUST, NIST, GDPR, and more, translating intricate regulations into actionable controls.

EMPOWER

Managed Detection & Response (MDR)

ClearDATA MDR proactively detects, investigates, and neutralizes cyber risks with continuous threat monitoring, automated safeguards, and expert-led incident response, all to reduce your cloud attack surface and keep sensitive data secure.

Use Cases

Ensure Compliance

Enable HIPAA, NIST, ISO and HITRUST through our Healthcare security expertise

Bridge the expertise gap

Get the best security and compliance outcomes, with minimal internal effort and investment

Proactive Security Research

Solve problems before alerts happen

Improved Incident Response Time

ClearDATA is the first line of response with joint response planning and remediation

How Wondr Health scaled security and compliance with ease

Opportunity

Wondr Health needed to secure sensitive PHI while scaling rapidly in AWS to grow their business, without the need to build an internal SOC.

Solution

They stayed secure and compliant with AWS infrastructure management, proactive security monitoring and threat intelligence through MDR, and compliance automation from ClearDATA.

Result

ClearDATA shifted the burden off of Wondr's internal team, helping to prioritize only actionable security alerts and threats, resulting in hundreds **of hours saved per week in triage,** reducing alert fatigue and improved response times.

How Rosetta Health achieved data Interoperability while maintaining security and compliance standards

CLEARDATA®

Opportunity

RosettaHealth needed to secure a SaaS-based health data exchange platform in AWS while maintaining compliance with HIPAA, HITRUST, and EHNAC standards.

Solution

As a designated AWS Level 1 MSSP provider, ClearDATA provided them with automated compliance enforcement, 24/7 security monitoring, real-time compliance tracking, and DDoS protection.

Result

ClearDATA provided RosettaHealth with robust and comprehensive security solutions that safeguard their health exchange platform, enabling them to focus on their core business: delivering innovative healthcare solutions. With this partnership, AWS's broad range of advanced security tools are utilized to their full potential, enhancing RosettaHealth's security measures.

ClearDATA Solves Healthcare's Challenges

1

Security at scale

Better security, with less impact to core business focus. Fewer, more effective alerts, because we build on the full AWS security ecosystem to deliver results.

2

Native AWS provider

ClearDATA is built for and on AWS. Our expertise in Healthcare and AWS ensures optimal compliance, performance and security.

3

Integrated Security

Integrated threat research with AWS Inspector and GuardDuty enables identification and protection from attacks before they begin.

4

Continuous Compliance

24x7 automated and managed monitoring ensures both Pre-emptive and reactive Cloud Resilience.
